SUMMARY

I am a self-motivated and passionate individual, eager to embark on a journey to pursue a bachelor's degree in Computer Science and Theoretical Physics. During the past summer, I combined my technical acumen with a commitment to community outreach. I completed an internship where I developed a responsive portfolio website, showcasing my work and skills. In addition, I conducted a free workshop in a rural school, sharing knowledge about Computer Science and programming languages. These experiences reflect not only my dedication to learning and technical proficiency but also my strong belief in the transformative power of education. I am excited to continue my educational path, with an unwavering enthusiasm for these fields and a deep desire to contribute to their advancement.

ACHIEVEMENTS

1st position-Website Development Event

This event was organized by collage as a project for computer science with the group of 6 member and we created a tourism website and won the first position where i worked as a front-end developer.

Inten Web Developement

Gauravgo Games Technologies Private Limited / Rachi Jharkhand /
September, 2023 - Present

In this short period of time, I have successfully designed a dynamic and responsive portfolio website. Additionally, I am currently working on the development of a tourism website. Through this internship, I have gained valuable insights into effective teamwork, even when we cannot be physically present.

Graphic Designer

Freelancer / Nepal / January, 2022 - Present

I worked as a graphic designer, specializing in photo and video editing, as well as copywriting and web development.

TRAINING/CERTIFICATION

Web Application

Udemy / 2023

I have learned about both advanced and basic algorithms of web development, and although I had some prior knowledge, it was a different and enriching experience learning from an experienced teacher. It has been an excellent experience working with this site.

Python

Codingal / 2022

I have learned to develop Calculator using python programming language .

PROJECTS

Quiz Website

I worked as a full-stack developer on a project designed for a quiz program during an intra-college competition when I was in the 12th grade.

Tourism Website

I worked as a front-end developer for this practical project, which was a part of a college competition, and we successfully secured the first position.
